

# Advances in Cardiovascular Management in Critical Care

on 27<sup>th</sup> May 2025

chaired by Jean-Louis Vincent (BE)

## PROGRAM

**09:10 - 09:15**

**Introduction - Welcome,**  
Jean-Louis Vincent (BE)

**09:15 - 09:40**

**Cardiovascular Management in the ICU**  
- Overview, Xavier Monnet (FR)

**09:40 - 10:05**

**Arterial Heart Coupling,**  
Fabio Guarracino (IT)

**10:05 - 10:30**

**Impact of Tachycardia on Vascular Biomechanics During Sepsis,**  
Vasileios Papaioannou (GR)

**10:30 - 10:45 Break**

**10:45 - 11:10**

**Understand the Interplay Between Inotropes and Landiolol,** Luka Lipar (SI)

**11:10 - 11:35**

**Landiolol for Cardiac ICU Patients: Clinical Benefits and Application,**  
Marek Šramko (CZ)

**11:35 - 12:00**

**Management of Arrhythmia in Patients on Catecholamine Vasopressors,**  
Yoann Zerbib (FR)

**12:00 - 13:00 Lunch**

**13:00 - 13:25**

**Benefits of Early Vasopressor Therapy,**  
Olfa Hamzaoui (FR)

**13:25 - 13:50**

**From Survey to Strategy: PRESS Insights on Vasopressin in Sepsis,** Daniel DeBacker (BE)

**13:50 - 14:15**

**Early vs Late Vasopressin in Septic Shock - Update,** Ashish Kumar Khanna (US)

**14:15 - 14:30 Break**

**14:30 - 14:55**

**Non Catecholaminergic Vasopressors in AKI,** Giovanni Landoni (IT)

**14:55 - 15:20**

**Bridging Evidence and Experience: The Reality of Vasopressin Use in Sepsis,**  
Ricard Ferrer (ES)

**15:20 - 15:45**

**AI-Driven Optimization of Septic Shock Therapy,** Romain Pirracchio (US)

**15:45 - 16:00 Break**

**16:00 - 17:00 Workshop**

**17:05 - 17:15 Closing**
