

# Pfizer International Symposium on Intensive Care and Emergency Medicine (ISICEM) 2022 hybrid symposium

Thursday 24 March, 2022  
12:30–13:30 (CET) Gold Hall  
SQUARE – Brussels Convention Centre

## Streamlining the management of CAP – Focus on the ICU

This satellite symposium will focus on key challenges in the management of community-acquired pneumonia (CAP) in the intensive care unit (ICU), particularly during the COVID-19 pandemic. Our esteemed speakers will review current guidance and critical-care considerations, including the pharmacokinetics (PK)/pharmacodynamics (PD) of available therapies, to ultimately improve patient outcomes.

### Agenda

**Chair: Massimo Girardis (Italy)**

- 
- |         |  |
|---------|--|
| 5 mins  | Introduction<br><b>Massimo Girardis (Italy)</b>                      |
